

UP: Rise Youth Student Leadership Program

Rise **up**; this matter is in your hands. We will support you, so take courage and do it."
Ezra 10:4

Leadership is influence. Leadership is not about age, popularity, or personality. We don't choose whether or not we have influence, but we can choose what to do with the influence we have been given. Saying 'yes' to leadership is a difficult decision to make; it takes intentionality. The first step of leadership is learning to lead yourself.

UP is a program designed to empower students to discover their purpose as leaders and equip them to lead themselves and others effectively. Students will learn what the core of leadership is: growth, responsibility and community.

Rise Youth wants to develop leaders who bring revival everywhere they go. Through UP, we will be able to pour into students at a deeper level and seek God together for transformation. We believe that God has given this generation His very best and we want to see them awakened to His call and purpose.

We understand that life happens and will be flexible with schedules but more than 3 absences may mean we ask you to leave the program and come back when your schedule allows it.
